

COVER, seen from above (lay face up on the cover)

BODY, cable end (-x) wall, seen from outside

BOTTOM of the body (desk side)

50 mm: measure this line. If it is not 50 mm, reprint.

Vein Unit vu16 - Takachi CS75N-B cutting template, 1:1

PRINT AT 100% / ACTUAL SIZE (no "fit to page", no scaling).

Cover: lay the sheet face up on the cover and line up the grey outline (75 x 35, R3).

The window also cuts the cover's locating pegs along its long edges: trim them flush with the window.

Body: the round hole in the end wall on the module's cable (plug) side, for the Grove cable.

Red = cut through; + = drill centres (corners: dia 4.4 or less). Unit mm.

window 59.4 x 26.4 R2.2 from the outline: left 7.8 right 7.8 -y 4.3 +y 4.3

end hole dia 5.2 centre 5.5 from the bottom, centred

Dashed red = stencil line, 1 outside the cut. To cut the paper out and trace inside it with a pen,

cut along the dashed line: the traced line then lands on or just outside the solid red line (the real size). Cut to the solid line.
